# COMMERCIAL/INDUSTRIAL WORKLIGHTS

Corrosion Resistant

Impact Resistant

Non-Conductive

WF Harris Lighting

Model 1200 Worklights

- Frosted clear impact-resistant UV-stabilized polycarbonate lens.
- UV-stabilized polycarbonate impact-resistant housing in safety yellow. Other housing options available; consult factory for colors and availability.
- High quality lighting grade LEDs.
- Driver warranted for 5 years by driver manufacturer.
- Heavy-duty model: 14-3 SJOOW black cord, liquid-tight strain relief flex nut.
- Standard model: oil/water resistant 18 SJTOW black cord with liquid-tight strain relief nut.
- Convenience outlet on heavy-duty model.
- Two magnets, 180 lbs pull strength each.
- Rubber booted water-resistant toggle switch.
- Heavy duty model includes switch guard.
- Eyebolt allows overhead mounting by chain or hook (neither included).
- ETL-US and ETL-C Listed (UL 153).
- Meets OSHA Code Requirements.
- 4,000 Lumens. 46Watts.

1200-WL-LED-4K   **Standard Worklight**
1200-WL-HD-LED-4K   **Heavy Duty Worklight**
Available with Safety Yellow Housing

Model 30 Worklights

- Frosted clear impact-resistant UV-stabilized polycarbonate lens.
- UV-stabilized polycarbonate impact-resistant housing in safety yellow or black molded-in color. Other housing options available; consult factory for colors and availability.
- High quality lighting grade LEDs.
- Driver warranted 5 years by driver manufacturer.
- Oil/water resistant18 SJTOW black cord with liquid-tight strain relief nut.
- One magnet, 90 lbs pull strength.
- Rubber booted water-resistant toggle switch.
- Eyebolt allows overhead mounting by chain or hook (neither included).
- Daisy-Chain Option (shown at left) has same components/features except includes an additional eight-inch female cord with the six-foot male cord.
- ETL-US and ETL-C Listed (UL 153).
- Meets OSHA Code Requirements.
- 1200 Lumens.   10 Watts.

30-WL-LED   **Compact Worklight**
30-WL-LED-Daisy   **Compact Worklight with Daisy-Chain Option**
Available with Safety Yellow Housing

Model 100 Worklight

- Clear prismatic impact-resistant UV-stabilized polycarbonate lens.
- Housing (white) constructed of fiberglass reinforced polyester. Other housing options available; consult factory for colors and availability.
- High quality lighting grade LEDs.
- Driver warranted for 5 years by driver manufacturer.
- Oil/water resistant 18 SJTOW black cord with liquid-tight strain relief nut.
- Two magnets, 90 lbs pull strength each.
- Rubber booted water-resistant push-type switch.
- Eyebolt allows overhead mounting by chain or hook (neither included).
- Two pairs of stainless steel suitcase style latches.
- Optional cart constructed of 13 guage red enamel painted steel.
- Oil-resistant casters rated 75 lbs each.
- ETL-US and ETL-C Listed (UL153).
- 4,400 Lumens. 42 watts.

100-WL-LED -4K4   **Linear Worklight**
100-WL-LED-4K4 -CT-WL   **Linear Worklight with Cart**
CT-WL   **Optional Model 100 Worklight Cart**

Model 1200 Worklights with Battery Backup

- Frosted clear impact-resistant UV-stabilized polycarbonate lens.
- UV-stabilized polycarbonate impact-resistant housing in safety yellow. Other housing options available; consult factory for colors and availability.
- High quality lighting grade LEDs.
- Drivers warranted for 5 years by driver manufacturer.
- Nickel Cadmium Battery Pack warranted for 5 years by battery pack manufacturer.
- Heavy-duty model: 14-3 SJOOW black cord, liquid-tight strain relief flex nut.
- Standard model: oil/water resistant 18 SJTOW black cord with liquid-tight strain relief nut.
- Convenience outlet on heavy-duty model.
- Two magnets, 180 lbs pull strength each.
- Rubber booted water-resistant toggle switch.
- Heavy duty model includes switch guard.
- Eyebolt allows overhead mounting by chain or hook (neither included).
- ETL-US and ETL-C Listed (UL 153)
- Meets OSHA Code Requirements.
- 4,000 Lumens. 50 Watts.

1200-WL-LED-4K-BB   **Standard Worklight with Battery Backup**
1200-WL-HD-LED-4K-BB   **Heavy Duty Worklight with Battery Backup**
Available with Safety Yellow Housing

Model 300 Worklight with Battery Backup

- Clear Prismatic injection molded UV-stabilized polycarbonate lens.
- Injection molded of UV-stabilized reinforced safety yellow polycarbonate for impact strength.
- High quality lighting grade LEDs.
- Drivers warranted 5 years by driver manufacturer.
- Nickel Cadmium Battery Pack warranted for 5 years by battery pack manufacturer.
- Six-foot black 18 AWG SJTOW cord with liquid-tight strain fitting.
- Two maximum-secure magnets rated 90 lbs pull strength each.
- Hard plastic rubber booted On/Off toggle switch.
- One Eyebolt allows overhead mounting by chain or hook (neither included).
- ETL-US and ETL-C Listed (UL 153).
- Meets OSHA Code Requirements.
- 1100 Lumens. 10 Watts.

300-WL-LED-1K   **Standard Worklight**
300-WL-LED-1K-BB   **Standard Worklight with Battery Backup**
Available with Safety Yellow Housing

Model 200 Worklight

- Clear prismatic impact-resistant UV-stabilized polycarbonate lens.
- Housing (white) constructed of fiberglass reinforced polyester. Other housing options available; consult factory for colors and availability.
- High quality lighting grade LEDs.
- Driver warranted 5 years by driver manufacturer.
- Oil/water resistant 18 SJTOW black cord with liquid-tight strain relief nut.
- Rubber booted water-resistant toggle switch.
- Eyebolt allows overhead mounting by chain or hook (neither included).
- Three pairs of stainless steel suitcase style latches.
- ETL-US and ETL-US Listed (UL 153).
- 8,800 Lumens. 92 Watts.

200-WL-LED-8K8   **Linear Worklight**

LOW HEAT / LONG LIFE
LEDS WILL NOT BREAK WHEN DROPPED
LOW POWER USE

Look for other rustproof, vandal resistant, nonconductive, energy efficient products on our web site at www.wfharrislighting.com or have your W. F. Harris Lighting Sales Representative or Distributor demonstrate how W. F. Harris Lighting can meet your illumination requirements.

What Kind Of Luminaire Do You Need? We Can Help!

High Abuse	Rough Service	Indoor/Outdoor
Worklights	Linear Lighting	Spotlights
Floodlights	Landscape Lighting	Lighting with Graphics
Decorative Lighting	High Intensity Discharge Fixtures	Wall Packs
Emergency Lighting		

What Location Requirements or Applications Can Our Products Satisfy?

Schools and Universities	Hotels and Motels	Condominiums and Apartments
Warehouses and Manufacturing Facilities	Farms and Agricultural Buildings	Restaurants/Food Industry
Military Housing and Field Units	Marine Docks and Piers	Boat and Yacht Lighting
Boat/Ship Building, Repair and Maintenance	Marinas and Boathouses	Beach and Coastal Lighting
Environmentally Responsible Lighting	Freezer and Cold Storage Facilities	Residential/Commercial/Industrial
Motor Transport Repair and Maintenance	Aviation Production, Repair and Maintenance	

Please note: Technology on Battery Pack Systems is progressing quickly. Please contact us for latest product availability.
